

Amendments to the Specification:

The following paragraph will replace the paragraph in the specification on page 43, lines 17-23 of the application as originally filed:

In **Figures 8, 9, 10** and ~~11~~ **11** there are shown two double ply swatches **70,72** overlaid on the moistened filter paper **74** which is on surface **76**. Swatches **70,72** thus define four layers, two of which have been treated with a wax dispersion. In **Figures 8-11** the treated layers are indicated by the diagonal lines. The layers are numbered **1, 2, 3** and **4** for convenience. **Figure 8** shows the multilayer configuration, for Example 14, whereas **Figures 9, 10** and **11** illustrate the multilayer structures for Examples 15, 16, 17 and 18, respectively.
